[Telford Computer Repairs](http://www.telfordcomputerrepairs.co.uk)

**Laptop Repairs, PC Repairs, Tablet Computer Repairs.**

We collect faulty computers. We return working computers.

We try to repair systems within 24hrs

Every computer receives a full service. This includes cleaning internal computer contacts, PC fans, laptop fans and computer breathing holes etc.

All computers are returned with the latest updates installed and fully working.

If reinstalling Windows, we probably the largest library of recovery disks anywhere (until June 2016, recovery disks were our main business), so we can almost certainly reinstall the correct software for your computer. We are full Microsoft Partners – We register installations with Microsoft

## *Data Recovery or Destruction*

We usually recover clients data by removing the hard disk drive and connecting it to another computer. We then scan the hard drive for viruses – kill any which are found and then copy the data to the 2<sup>nd</sup> computer. Only then do we begin computer repairs. This guarantees that recoverable data (irreplaceable photos etc) is never lost.

Please Note;

We treat all data as strictly confidential; we **never** view clients pictures or other files.
